they retreated deeper inside taking shelter in a side cavern While the world feared them dead the thirteen young souls survived by licking the condensation off the cave s walls meditating and huddling together for warmth In this thrilling account ABC News Chief National Correspondent Matt Gutman recounts this amazing story in depth and from every angle exploring their time in the cave the failed plans and human mistakes that nearly doomed them and the daring mission that ultimately saved them Gutman introduces the elite team of volunteer divers who risked death to execute a plan so risky that its American planners admitted for us success would have meant getting just one boy out alive He takes you inside the meetings where life and death decisions were grimly made and describes how these heroes pulled off an improbable rescue under immense pressure with the boys desperate parents and the entire world watching One of the largest rescues in history was in doubt until the very last moment Matt Gutman covered the story intensively went deep inside the caves himself and interviewed dozens of rescuers experts and eye witnessed around the world The result is this pulse pounding page turner that vividly recreates this extraordinary event in all its intensity and documents the ingenuity and sacrifice it took to succeed
